

8872Schema.xsd

- ContactPerson was made a required field by changing the minLength value to 1 instead of 0.
- All Address fields were changed because the definition changed (description below)

8871Schema.xsd

- All Address fields were changed because the definition changed (description below)

8871and 8872common.xsd

- StreetAddressType and CityType patterns were changed so that:
 - Beginning spaces are not allowed
 - Only valid characters are: a-zA-Z0-9 . - # % / , and a space (not at the beginning)
 - All invalid characters: _ @ \$ ^ & () + = | \ [] { } * < > “ ” ‘ ’ : ; ~ ! ?
